

YOU'LL THANK US LATER

RIGHT NOW, MOST PEOPLE ARE STILL FOCUSED ON SUMMER.

Out of office replies are everywhere. Half the team is at a golf outing. The other half is trying to squeeze in vacation days before everything speeds back up again.

Then suddenly:

- Budgets need to get used
- Projects need to happen before mid-December
- Approvals take longer
- Shipping matters more
- Everything becomes “high priority” at the exact same time
- And somehow it is already November

Sound Familiar? That's exactly why the smartest teams start planning now.
