

# Theragun percussive therapy, now for the face.

A relaxing facial massage meets the facial treatments you love, all in one device. Reduce tension and relax facial muscles with the technology behind Theragun percussive therapy, now designed for the face. This multi-tasking device doesn't stop there — from skin-toning microcurrent to rejuvenating light therapy, you can combine and customize more facial health treatments than any other device.

### Benefits:

Percussive Therapy Attachments  
Relieves tension in face, jaw, neck, and head.  
Reduces minor facial muscle pain. Gentle 3 mm of amplitude.

### Microcurrent Ring

Firms and tightens skin. Improves muscle tone in face/neck. Gently stimulation helps firm and plump for youthful glow.

### LED Light Ring: Red Light Therapy

Helps reduce wrinkles around the eyes.

### LED Light Ring: Blue Light Therapy

Helps reduce mild to moderate acne.

### LED Light Ring: Red+Infrared Light Therapy

Helps reduce wrinkles around the eyes. Warming temporarily reduces pain.

### Cleansing Ring

Removes built up of dirt, oil, debris. Percussive-based cleansing enhances removal of pore-blocking debris and dead skin.
